### BACK ON THE JOB.

The editor and family arrived home Monday forenoon from their visit to the editor's boyhood home in Mississippi. During the twenty-day journey we Ford-ed a distance of 2148 miles, over all kinds of roads, burned up 121½ gallons of gas and visited practically all the relatives we have living and renewed numerous acquaintances of boyhood days. On the journey we traversed parts of five states, Texas, Arkansas, Tennessee, Mississippi and Louisiana. We found crop conditions fair everywhere and people prosperous. The trip was made without serious mishap of any kind and we found the automobile service men everywhere a courteous and obliging set of gentlemen, always ready to give prompt and efficient service.

A pilgrimage such as this was always a mingling of joy and sorrow, and we found not a little of both. An unique feature of the trip was the reunion of the four remaining members of the editor's family of brothers and sisters of whom he is the youngest by some eight years. Though now old people and the sole survivors of a family of five brothers and eight sisters, not one of the four could recall to memory when all of the living representatives of the family had ever been together before. This shows how early the

### WE WILL BE CONSISTENT.

We had rather be consistent in defeat than receive the plaudits of the winning crowd and know in our heart that we had betrayed a friend in his extremity.

For almost three weeks, while living over memories of boyhood days, we dismissed all thoughts of Texas politics from our mind and do not know how badly things have been "boogered up" in a political way in the state.

We do know that we were for Mrs. Ferguson for re-election at the first primary because it was hers by right of Democratic precedent and because she had earned it by faithful and efficient service.

Those reasons are valid still. We were opposed to Dan Moody because, having violated Democratic precedent by contesting a deserving public servant's right to a second term, allowed himself for personal gain to be made the instrument of vindictive hate, and become the beneficiary of the oil trust with its selfish purpose to serve, we regarded

him as unworthy of the honor he thus sought. These objections still hold true. In addition to this, a comparison of the Robertson-Butte vote in Medina County two years ago with the Moody vote in the recent primary shows that he is as much the choice of the ku klux klan as were they, and as a consistent opponent of this dangerous organization we could not turn to him now. So, be other's course what it may, we shall be consistent. We shall vote for Mrs. Ferguson, and cheerfully abide the consequences.

And so we might ramble on and on until we filled this entire paper. But we must desist. We are grateful to those who helped our folks get out a good paper in our absence and are glad that they did the job so well that while we forgot the paper we were not missed from our job. Now is the time to subscribe!

These objections still hold true. In addition to this, a comparison of the Robertson-Butte vote in Medina County two years ago with the Moody vote in the recent primary shows that he is as much the choice of the ku klux klan as were they, and as a consistent opponent of this dangerous organization we could not turn to him now. So, be other's course what it may, we shall be consistent. We shall vote for Mrs. Ferguson, and cheerfully abide the consequences.

One of the foulest and most brutal murders that ever helped to blacken the pages of crime in Southwest Texas occurred near Medina City in Bandera last Sunday afternoon when Will A. Gray was not only cruelly murdered but his body foully mutilated by Pat Forrest. Two Hondo people, Mr. and Mrs. E. H. Frerichs, happened along while the murder was being perpetrated but being unarmed they were driven away from the scene by the perpetrator and were powerless to interfere. The crime has excited a great deal of interest and the trial which will result will no doubt awaken a great deal more.

A shooting scrap between a Mexican and the occupants of an automobile headed towards San Antonio occurred sometime Sunday night. A lot of contradictory reports have been floating about, but indications are that it was an outbreak growing out of an old feud between a Mexican named Medina and the occupants of the car, Mexicans as yet unknown to our officers. Medina was arrested and fined \$100.00 for unlawful possession of a pistol, and in default of payment is confined to the county jail.

Elsewhere will be found the announcement of Henry V. Haass, Sr., as a candidate for Justice of the Peace of Precinct No. 1, at the November election. ## ELLIS WURZBACH, MEDINA COUNTY BOY, RECEIVES COMMENDATION.

Is Complimented by H. R. Safford, Executive Vice President of the Missouri Pacific Lines.

IS ARDENT BOOSTER FOR A. & M. SHORT COURSE.

Prize-Winning Best Short Story on "Agricultural Possibilities of Medina County" Presented.

Ellis Wurzbach, who resides with his parents on a farm on Route G out of San Antonio is an ardent booster for the Farmers Short Course held each year at College Station, and says that every farm boy and girl in Texas should make an effort to attend. Young Wurzbach, who, from all indications is a coming farmer, attended the seventeenth annual Farmers Short Course this year as a guest of the Missouri Pacific Lines for having written the best story on "The Agricultural Possibilities of Medina County". All expenses of the trip were made a present to him by H. R. Safford, executive vice president of that railroad.

The story written by Wurzbach received high comment from Mr. Safford, who complimented the Medina County prize winner for his ability as a writer and his knowledge of agricultural conditions and development work. "Wurzbach is a real farm boy who takes an interest in his work" Mr. Safford said. "It would be good for lots of grown-ups to read what he has to say about agricultural development in Medina County".

The story as written by Wurzbach follows:

"Medina County is a typical Southwest County with an abundance of natural resources yet undeveloped, with the best possibilities of developing into an outstanding county of the Southwest. Medina County was made possible by railroads and good roads, with the continuance of progressive county officials and especially the commissioners court as we have at present who are continually working to build better roads. The county school superintendent is using his influence in building better schools in the rural sections of the county. Good roads, good schools, and progressive people will make Medina County possible of being the outstanding county."

Medina County possesses all of the varied soils necessary for nearly all crops. The Northern one-third consists of Limestone hills with fertile valleys. These hills are well adapted to goats, sheep and cattle. Hogs and turkeys will range here with good results. The valleys can be utilized for gardens, orchards, and feed crops or top these animals off.

The Central one-third of the county consists of black waxy and chocolate soils. It is well adapted to raising feeds of all kinds such as corn, oats, wheat, cotton; also for stock farming by putting these feeds into high bred beef cattle, dairy cattle, hogs, sheep, and poultry. For beef cattle, the Hereford breed seems to be best adapted to the county. Holstein and Jerseys for the dairy. In the future we will have to raise more high grade live stock of all kinds on the farms, in order to consume more of our own crops and market them in the way of finished stock instead of feeders. The dairy cow offers a good return by marketing the dairy products.

The dairy industry has also been made possible by good roads over which we now have milk routes leading into San Antonio to the large creameries. These routes bring milk for many miles, some routes are as far as one hundred miles from San Antonio. We must assist the Health Department in making our dairy plants as sanitary as possible, in order to obtain the highest prices for our products. In communities where there are a good many small dairy herds, the male animals can be bought by several going together and buying the best milk producing strain and another community doing the same then later exchanging the males.

The Eastern portion of this central one-third of Medina County is especially adapted to the raising of the best oats, corn, and wheat. They are raising the best oats in Texas, in quality and yield. Wheat and corn too are of very good quality. Some of the farmers of this section make an especial effort to produce the best oats, wheat, and corn for seed, more especially the oats, which are rogued by hand in the field under the direction of the A. & M. College Extension Service. These farmers have formed an Oat Growers' Association for the purpose of growing pure seed. The association have a committee to inspect the fields before they are cut and any field not coming up to requirements is not allowed to be cut in the association. After the oats are threshed they are then run through a recleaner twice to

take out all light seed.

The Southern one-third of the county from east to west consists of black waxy, sandy loam. The Eastern portion of this section is under irrigation from the well-known Medina Lake. This land is especially adapted to truck farming and fruit growing. There are now pecans and citrus groves on it. The sandy part of this section is well adapted to dairying as legumes, grain sorghums, and sudan grass do well. Hogs can be run at a good profit as there is the acorn mast to help with the grain. Turkeys will use this same range to good advantage. Cotton is grown very extensively in the Southern part of this county. The farmers of this section have organized to the extent of planting one variety of watermelons. Then there is another industry which has helped the farmer of this section and that is that many of the farmers have planted one variety of corn to be shipped, as roasting ears. This year many carloads were shipped out of this section.

The western portion of this southern part of the county is especially adapted to the raising of honey. A very high quality of honey is grown here, due to the suitable brush that grows there. It is also a good sheep and goat country.

The average rainfall is 28 inches which is ample for raising the above mentioned crops in Medina County.

More silos must be built for storing green feed for the dairy cows. In order for the farmer to prosper he must do diversified farming. Raise a few high grade beef cattle, dairy cows, and hogs. Do not overlook a few sheep around the place to keep down the weeds and then at the end of the year have a nice clip of wool. No farm is complete without some good laying hens and a home garden so that one might live at home.

The parents should assist the county agent in organizing the boys and girls agricultural clubs to better the quality and quantity of such as baby beef, dairy cattle, poultry, corn, cotton, etc. By this means they will learn to raise better live stock and seed. It will assist them in becoming better farmers and farmers' wives when they grow up. They should take in the Short Course at the A. & M. College, which is very instructive. The parents should take in these Short Courses also in order to be able to appreciate what the A. & M. College is doing for their boys and girls and by doing so they will encourage them to join these clubs.

The County Home Demonstration Agent plays an important part also in organizing womens clubs in which they exchange ideas and to assist the women in dressmaking, cooking, and how to make the most convenient home, assist them with their poultry and gardening. We are unfortunate in not having a home demonstration agent in Medina County.

A special treat was given the large audience by Mr. Otto Schawe of Maxwell, Texas, a student of Theology at Wartburg Seminary at DuBuque, Iowa, by a very clean and interesting discourse relative to the Lutheran College at Seguin. At a meeting held immediately after the program had been given a resolution prevailed according to which the Luther League will give a social some time in September in order to raise funds for a piano, which is needed and desired to help along the singing of the congregation, Sunday school, League, etc. A committee composed of Mrs. Albert Mumme, Miss Bertha Oefinger and Messrs. ## A DANGEROUS FEAT.

Editor, Hondo Anvil Herald,  
Perhaps it will be of interest to  
you and the Anvil Herald readers to  
learn of the feat accomplished by  
our twenty-months-old boy.

One day, a short time ago, after  
Lloyd Warren had been absent what  
seemed to be only about five minutes,  
his mother became alarmed and be-  
gan to search for him. She received  
an answer but could not locate him.  
Finally looking up to the top of the  
windmill, she spied the youngster on  
the last round of the ladder. The  
mother screamed frantically while  
the youngster was chuckling all over  
with laughter and holding himself  
with only one hand, while with the  
other he was at work trying to turn  
the wheel. Had there been another  
round, he probably would have been  
on the platform, satisfying his ever-  
craving for some adventure.

Mrs. Rieber, although she had  
never seen the top of a mill, over-  
came her fears, made her way up  
and clutching Lloyd under an arm  
made her way to safety.

Boys will be boys, so let this be  
a warning to parents with youngsters  
owning a mill to elevate the lower  
rounds.

Let me add in a jocular manner,  
should there be an evolutionist in  
Hondo, he would say, "Verily I say,  
I see in this youth the instinct of his  
ancestors."

Truly Lloyd is a problem confront-  
ing us with something new every  
day. No fence will hold him; he  
finds his way across any fence, gets  
into water troughs, mud puddles,  
bathes in milk troughs, goes to cows  
to flourish their horns, etc.

Let me finish my letter here.  
Your friend and subscriber,  
E. S. RIEBER.  
Tarpley, Texas, August 10, 1926.

## FLETCHERIZED FARM FACTS

By the Editor.  
YOU CAN NOW HAVE A BRAND  
NEW LIVER.

How Dodson's Liver Tonic Makes  
You Feel the Old Liver  
Is Born Again.

Just off the slant of Old Piedmont  
where it rolls away into the foot-  
hills of South Georgia, Bud Evans  
makes a good stand of cotton. A year  
ago he was too sick to even follow a  
plow. His right side seemed hard,  
felt as if his liver had been turned  
to stone; belched gas all the time;  
couldn't hold up his head for the  
pain; calomel just turned him inside  
out. You couldn't imagine anyone  
sicker than Bud Evans. It just hap-  
pened that an egg buyer dropped in  
on him one day and says: "What  
you need, Bud, is a dose of Dodson's  
Liver Tonic—your liver is baked and  
full up so it doesn't work." And so  
Bud got a bottle at the town drug  
store for a few cents. The very  
first night is loosened up so much  
sour bile and fermenting food that  
the swelling went down, his whole  
system righted itself and he was a  
new man entirely before noon.

There is no question but that Dod-  
son's Liver Tonic will do more for  
bilious people than anything else  
ever known. It works easily and  
smoothly, without gripe or distress,  
and cleans out all the sour bile and  
sickening stuff that gives you head-  
ache, nausea, vomiting, bilious fever  
and all other distresses due to ob-  
stinate constipation.

Get one bottle of Dodson's Liver  
Tonic, and if it doesn't make you  
feel like you had traded your old,  
worn-out liver for a new one full  
of pep, go to the druggist and he  
will refund the price.

### Pains disappeared

"SEVERAL years ago I was  
badly run-down," says Mrs.  
John Bunch, R. F. D. 3, Colum-  
bia, S. C. "I could not do any  
of my work. I was so weak I  
could not wash a dish. My back  
and sides hurt me at times  
dreadfully. I dragged around  
until I finally got down in bed."  
Then, explains Mrs. Bunch,  
she happened to read about  
Cardui, the woman's tonic, and  
decided to give it a thorough  
trial, the results of which she  
describes below:  
"It seemed to reach the  
cause of my trouble at once.  
I did not take it long before  
my appetite began to improve.  
I gained in weight from 114  
pounds until now I weigh 125  
pounds. I soon was able to be  
up around the house. I took  
up my household duties and  
was delighted with my return-  
ing strength.  
"I now do all my own work.  
The pains in my sides and  
back have disappeared and I  
feel like a different person."  
Cardui has been helping suf-  
fering women for nearly 60  
years. Sold by all druggists.

## In the Kitchen with 6 Famous Cooks

### DOLLING UP THE HUMBLE POTATO

Four Unusual Recipes by Four Famous Cooks

Don't think that after you've served potatoes mashed, creamed, and fried you've put them through all their paces. You don't have to begin repeating the old story. There are many delightful ways of preparing the humble spud, as several famous cooks have discovered. They actually glorify this homely American vegetable!

MRS. BELLE DE GRAF

#### Tamalpais Potatoes

Tamalpais Potatoes. Doesn't the very name make your mouth water? This delicious dish, prepared from left-over potatoes, is a favorite with Mrs. Belle De Graf, San Francisco home economics counselor and writer.

Chop fine 3 cups cold boiled potatoes. Add 1/4 cup of cream, and salt and pepper to taste. Pack very solidly in buttered custard cups, or muffin pans. Set in a pan in a very hot oven. Bake 30 minutes, or until golden brown crust has formed which will hold the potatoes together. Turn out in individual molds.

#### Baked Potato "Tips"

Mrs. Sarah T. Rorer, Philadelphia cooking expert, adds two or three artful touches to baked potatoes which make them taste unusually good.

"After scrubbing large, perfect potatoes, I soak them an hour in cold water," she says.

"I bake them on the upper grate of a medium oven, and turn them after 20 minutes. I let them bake another half hour, or until they feel soft when pressed in a napkin.

"Never try them with a fork, for this allows the steam to escape and makes them heavy. Serve in a napkin at once.

"The secret of good baked potatoes is a slow oven; for a hot oven hardens the skin at once and makes the potatoes soggy."

#### Stuffed and Browned

Miss Margaret Allen Hall, nutrition expert at the Battle Creek College of Home Economics, has a decided preference for stuffed potatoes. She fixes them like this:

- 3 medium-sized potatoes
- 1/2 cup milk or cream
- 3 tablespoons butter
- 1 teaspoon salt

Select well-shaped potatoes about equal size. Bake until soft, then cut or break each potato at about the middle. Remove the contents, mash, add salt, butter, and sufficient cream or milk to cause the potato to beat up light. When very light, fill skins with the seasoned potato, piling it up in irregular shapes. Set the stuffed potatoes in even a few minutes to brown.

#### a la Pittsburgh

Mrs. Kate Brew Vaughn, home economics director, of Los Angeles, teaches cooking to 100,000 women every year. Her Pittsburgh Potatoes are rich enough to serve as the only cooked luncheon dish, she says. If served with a good salad they provide a delicious meal. Here is her recipe:

- 1 lb. potatoes
- 1 cup grated cheese
- 1 diced pimento
- 1/2 cup bread crumbs
- 4 tablespoons butter
- 3 tablespoons flour
- 1 cup milk
- Salt and pepper

Wash potatoes and boil until soft. Put a layer of potatoes in baking dish. Sprinkle with grated cheese, salt, pepper, butter and chopped pimentos. Add another layer of potatoes and repeat with cheese and pimentos. Pour over this one cup white sauce. Cover with buttered bread crumbs. Bake in oven until well browned on top.

Prepare the white sauce by melting two tablespoons butter, and stirring in flour until smooth (2 tablespoons), then add one cupful milk and salt and pepper.

There you are! Four tempting potato recipes, all easy to prepare, favorites of four famous cooking specialists. Try them on your family. They will welcome these unique variations of the potato theme.

#### For Oil Stove Users

Women who cook with oil will appreciate one of the newer oil stove models with a reversible, easily filled glass reservoir. The hands do not come in contact with the kerosene at all.

Get it at Windrow's Drug Store. Telephone 124.

#### Whitens Hands

Before using rubber gloves sprinkle baking soda inside. You'll find them easy to remove, and your hands will be whitened.

#### When to Use Salt

Underground vegetables, the roots or stems of plants, should be cooked in boiling unsalted water. They contain a certain amount of woody fiber which is hardened by salt. Salt them when ready to serve.

"Top ground" vegetables, such as peas, beans, cabbage, and onions, are much better cooked in boiling, salted water. Cooked this way they retain their color, and their flavor is intensified.

## Six famous cooking experts agree

Pacific Coast, Gulf of Mexico, New England, and Lake Michigan! Six of the country's foremost cooking experts have just completed a rigorous test of the Perfection Stove.

**THEY** used every method of cooking from frying to baking, and were enthusiastic about the Perfection. Read what they say.

"Whether I broiled steak or French-fried potatoes, the results were fine," says Mrs. Rorer, famous Philadelphia cooking teacher.

#### Crisp Waffles

"My waffles were light and beautifully brown," says Miss Allen, director of The Boston School of Cookery. "They cooked on a hot flame, with yellow tips 1 1/2 inches high above the blue area."

"I found the Perfection so dependable," reports Mrs. DeGraf, home economics counselor. "I left a roast lamb in the oven for hours. The flame never wavered."

#### No Scouring Needed

"Eggs a la King and broiled tomatoes are delicious enough in themselves," affirms Miss Hall, nutrition expert, "but twice as delicious to the cook whose kettle bottoms need no scouring. Perfection's long chimneys burn every drop of oil before the heat reaches the cooking. No soot or odor."

"Using a Perfection is like cooking with gas," remarks Mrs. Vaughn, domestic science expert, Los Angeles Express. And Miss Rosa Michaelis is of the same opinion.

#### Tested Cooking Ability

These are just a few comments made by the six experts, satisfied with only the best cooking equipment. They find the 1926 Perfection fulfills every cooking requirement.
